Notes

1. The number of active neighborhood associations that are supported will be reported in the Community Condition Indicators.
2. Administrative charges (staff hours, rentals, etc.) were previously budgeted in one administrative activity per Service Delivery Plan and then "allocated" to the other SDP activities. Beginning with FY 2002/2003 the hours are apportioned more specifically to the activities, resulting in the appearance of significantly higher product costs (once the allocation formula is activated, product costs are then more similar).
